PUPPY DOG JIGSAW PUZZLES. If you can read the title of this game, you know what you're getting. If you can't, then how are you reading this? You can play something like this free online, but my 2 year old son liked the pictures of puppies so I bought it. A lot cheaper than most of his toys, and it held his attention for about as long (5 minutes). He likes classic Doom a lot more, but at least with Puppy Dog: Jigsaw Puzzles I don't feel like I'm contributing to his moral deprication as much.. good\u2665\u2665\u2665\u2665\u2665dude. Perfect games don't exi-. best game i have ever played would reccomend. PuppyDog Jigsaw Puzzles, where do I begin. It's a timeless masterpiece. The gameplay is smooth and very responsive. No lag, no internet connection required, infinety replayable levels, what else could you want from a game? Not to mention the amazing puzzles of cute dogs and puppies. And to top it all off its at the low low price of 2 DOLLARS. Buy this game and you wont regret it. You'll have the time of your life. 100,000\10 the best game of our generation and probably the best game for more generations to come.. Jigsaw puzzle, about cute puppies!

Lighthearted, simple and no frills (no music).
Several levels of difficulty.
The puppies are adorable!

. Honestly not bad. If you like puppies and can find something to play in the background, go for it. Though someone at EnsenSoft has to learn how to count. There are not 'hundreds of puzzles'. There are four sets of 21 cute pups. And if you don't like puppies and mindless fun, well I can't help you.. they're so cute

i like this game because it is interesting. I figured I would try this game out as it was cheap, and featured puppies, which... is always a decent subject for puzzles. I'm not sure if I like the piece outlines, but still it seems perfect for the young or beginners to puzzle solving.

And the pictures are cute, so.... While i would imagine it's aimed at younger gamers, i thoroughly enjoyed it! it's not too taxing, and really great to relax with and just let your brain rest. plus, puppies! the emoticons that come with earning cards are SO cute, and i got some PAWsome rewards for playing. there's no music which i feel is a blessing, that way you can put your own on and just chill out while you do the jigsaws. they obviously vary in difficulty, so perhaps if you just want to indulge your inner child you can just sit with the basic mode or if you're a big kid like me just enjoy it for what it is. for me, it's on the same level as colouring. something to take your mind off things while not straining your brain.

i'd recommend it for busy minds like mine :3 \u2665. This game it's very simple and cute . If you like puzzles and you have a lot of free time i recommend this game for you .

Cute pictures , no bugs , 4 difficulty levels. Simply epic.... One of the best games I've ever had the pleasure of playing. The amount of sheer content packed in this 0.99 game is genuinely insane, there's over 80 levels (some being boss battles) and 4 different worlds to choose from. This game is accessible to almost any age, but older players will find the true beauty in this hidden gem of the steam store. PDJSP (Puppy Dog JigSaw Puzzle) also has a complex rating system, with your score being determined on many factors, the most noticable being the "time" factor and the "pieces moved" factor. With this ranking system in play, the game opens up to thousands of hours of replayability in order to improve your score from before. This game truly shows that you don't have to be part of a namebrand company to make a masterpiece of a game. PDJSP is perhaps one of the best games to purchase on the Steam Store. I look foward to what supprises EnsenaSoft brings to the table with the possible sequels or DLC.. The only reason why i bought this game because there were dogs in it
